

Peer Tutoring Attestation

Marko Yaroslavo Litovchenko participated in the Peer Tutoring Program, administered by the Dawson College Academic Skills Centre in conjunction with Student Services. Marko worked with some of our most challenging clients with great professionalism.

The program matches high-achieving students with those having difficulty in subject areas at the college. These qualified and trained tutors have the opportunity to review their own work and earn an income while helping others learn.

Marko's expertise was in Database I 420-231-DW, Programming I 420-110-DW, and Infrastructure II 420-240-DW. He tutored students individually in the Academic Skills Centre in the Winter 2023 semester. Both competent and reliable, he was an asset to the program, and I am pleased to recommend him.
